BIOGRAPHY

A songwriter at heart

Johan Widén has written songs since 1990. What started with a guitar and a cassette recorder in southern Sweden has grown into a catalogue of close to 200 original songs – rock, pop, ballads and blues, all with his own lyrics and music.

> *At twelve he picked a stage name that sounded international: Johnny Tason.*

Many of the early songs were written and demoed under that name. Today he releases his music as Johan Widén and is going back through the archive, re-recording the strongest songs with modern production.

Johan lives in Skåne in the south of Sweden and writes his lyrics in English for an international market.
